Sketching

Education

Mumbai University

Bachelor in Computer Science Engineering
2020 – 2024
Percentage – 9.23 CGPA

Thomas Baptista Junior College

Intermediate XI – XII (HSE)
2018–2020

Holy Cross English High School

Jr. KG. – X (SSE)
2006–2018

Achievements

- May 2021 – Jun 2021 Online

Contributor
PRAYAS- 2021

Developed a modern periodic table using C programming, offering comprehensive element information, intuitive navigation, and search functionality. Our program visualises periodic trends and ensures optimal performance, aiming to be a reliable educational resource for chemistry enthusiasts.

Tools/Skills

Figma
UI Design, prototyping

Java
Software Development

Python
Design workspace

HTML 5
Structural Design

Latest projects

Mushroom Identification System

App simplifies mushroom identification using machine learning, trained on extensive dataset for accurate species recognition and enhanced user safety.

AI Desktop Partner using Python

AI-powered Python project enhances user-machine interaction with features like time-based greetings, voice commands, window switching, YouTube search, note-taking, and more. Utilized libraries like pyttsx3, speech_recognition, datetime, and Flask.
